

## Opportunity to Access Compute Time on EuroHPC Supercomputers: A Webinar for Researchers

We're pleased to announce an upcoming webinar hosted by ISERD and [IUCC](#), in collaboration with research authorities, aimed at introducing researchers to the EuroHPC program's (link) powerful supercomputing resources.

This event will guide participants through accessing European supercomputing infrastructures to enhance research efforts.

### WEBINAR INFO

Date: November 27, 2024 ☐  
Time: 10:00 - 11:30

#### Event Highlights

Insights into the EuroHPC program and infrastructures  
Guidance on securing supercomputing hours in Europe  
Opportunities for interdisciplinary collaboration

[Registration Link](#)

We encourage you to extend this invitation to all researchers within your institution who could benefit from high-performance computing resources to support their work. This webinar is a unique opportunity for them to gain access to advanced computational resources in Europe and expand their research capabilities.
